

ThankClark,

Good morning! Just wanted to let you know what a wonderful gentleman you have working for your company. Yesterday Ed came out to spray my home for Black Widow spiders and ants. He was informative, polite, and professional. I forgot to tell him about the cats not being allowed out of the yard. One of my cats ran down the path and I thought he made it to the front. Ed and I searched but couldn't find him. I left for work and when I got home last night, I found that he was still in the backyard. He hadn't escaped after all! I was happy and relieved. This morning, Ed called to check on Sherman (the supposedly missing cat). His concern and kindness are just amazing. I know he services a large area of homes and for him to take the time to call and make sure Sherman was back at home and safe, is truly remarkable. Thank you for having such a wonderful person on your staff. I am going to tell all in the neighborhood about your wonderful service and your stellar employee.

Sincerely,

Maureen
