

ThankClark,

"My" Clark Pest Control has just left after his final day here at our residence. I call him "my" Clark guy because he, Christopher, has been here from the very start of this month plus project and I have to say what an outstanding job he, and John, and Demetri (along with Kevin and William) have done.

This house is rather old and has (now had) a few repairs that needed to be taken care of. My owner of this property took the right step in having Clark come out and one thing after another, Clark really did come to the rescue.

Chris and John were extremely courteous, considerate, professional, neat, and just all around good guys to have around.

Thank you so much for doing such a wonderful job!!

Best regards,  
Beth and Bob
