

To Whom it May Concern,

10/07/2009

Clark Pest Control, Modesto Branch is our company's pest control service provider. This is the first year we have been in contract with Clark Pest Control.

Recently, our company had our annual AIB audit. We were pleased to have a Clark's representative, Dennis, available to answer all the questions regarding the "Integrated Pest Management".

The purpose of this letter is to thank Dennis and Hans (field technician) for their dedication and excellent service. Because of their professionalism, our company received the highest rating available, by AIB, regarding IPM. These gentlemen demonstrated dedication and cooperation not only during the audit, but also doing their own pre-audit inspection, to insure that the facility was up to AIB standards.

Once again, Enviro Tech Chemical Services would like to express our gratitude for all their hard work, effort and understanding.
