

Clark Pest Control Management:

I'm writing to you about one of your trusted employees. His name is Dave, and we initially met him when he came out to our townhouse complex Fremont, Ca. I am one of the board members of the townhouse complex, and I was impressed by Dave's punctuality, professional appearance, and work ethic. He showed up on time, answered all of my questions and provided me with additional information related to our termite problem, and he worked diligently throughout our complex as he proceeded with the complex inspection.

As one of the board members in the Townhouse Complex in Fremont, I want you to know that Dave is the key factor in making our decision to go with your company to treat our entire complex.

My fiancé recently purchased a home in Newark, Ca. Upon completion of the home inspection, it was determined that the house had a termite problem. Being that we had such a positive impression of Dave with our townhouse in Fremont, we immediately called Clark Pest Control and put in a request for Dave to come out to do a inspection on this particular single family home.

Again, we were impressed by Dave's professionalism when he came out to Newark to do the home inspection. Dave is the key factor on why we chose to go with Clark Pest Control again. He impressed all of us (board members and homeowners) when he came out to our townhouse complex in Fremont, and he did the same when he came out to the new house in Newark.

In closing, I hope that you will recognize Dave for his hard work and devotion to your company. He is a definite asset to your company, and the main reason why we chose your company to treat our homes. If we have a pest control problem in the future in either our townhouse complex in Fremont or the house in Newark, we will be sure to call Dave up again.

Thank you,

Alvin & Ying
